The Centre Leader,

Centre of Excellence in Reproductive Health Innovations

(CERHI)

University of Benin,

Benin City, Nigeria.

Sir,

**CENTRE OF EXCELLENCE IN REPRODUCTIVE HEALTH INNOVATIONS (CERHI)
EXTENSION BUILDING**

CERTIFICATION OF COMPLETION. (100%)

We are a consortium of Civil/Structural Engineers based in Benin City. We are registered with the **Association of Consulting Engineers of Nigeria (ACEN: F429)** and **Council for Regulation of Engineering in Nigeria (COREN: R.1356)**

We hereby Certify that the above building was designed according to the standard Engineering code of practice regulating Engineering in Nigeria as contained in the prescribed code of practice.

We have carefully taken time to carry out a detail assessment of the above completed building putting into consideration the Structural integrity and functionality of the structure.

Having satisfied the requirements as contained in the Federal Ministry of Works Specifications in the Construction Industry in Nigeria, Council for the regulation of Engineering in Nigeria (COREN) and also complying with all the Standard approved procedures in the Construction of the Works to meet with the Client's requirement and ensure end user satisfaction, **We Hereby Certify**

*that the Construction Works of the CENTRE OF EXCELLENCE IN
REPRODUCTIVE HEALTH INNOVATIONS (CERHI) EXTENSION BUILDING IS
100% Completed on the 10th January, 2023*

This Certification however is anchored on the following assumptions.

- We will only be liable exclusively for part or parts of building supervised by us.
- All structural elements of the building must have been duly certified by qualified personnel before casting of concrete on the reinforcement.
- The Site Supervisory Staff ensured that all works conform to Contract documents, drawings and instructions.
- Materials for Construction were checked to ensure quality and that workmanship conform to the required standard.
- Contract Execution conform to the terms and provisions of the contract
- Setting out well articulated with the contractors and confirmatory soil tests properly done.
- Unsatisfactory materials on site promptly carted away and no material is removed after inclusion in a valuation.
- Contractors has largely complied with Health and Safety Standards in line with best practices

Thanks for your cooperation.

Yours Faithfully,

For: **SHMIDKOH ENGINEERING CO. LIMITED.**

Engr. S.I. Ojokoh
Executive Director Projects.
